Personal Financial Management

Initial Setup

Setting up financial goals for yourself is just as important as establishing a budget. As you move closer to your objectives, our Personal Financial Management service not only serves as a rearview mirror to see how far you have come, but also as a map, so you can see how much further you need to go. The path toward funding expenses such as a home, vacation or even tuition becomes clearer and easier to manage.

The tools within PFM help you calculate your net worth, set budgets, view your spending habits and trends and set up a debt payment plan.
